

Duratop is a 16mm thick benchtop compact laminate, it is affordable yet tough and is proven to stand the test of time.

"Ideal for engineering labs, electronics labs and physics labs"

Properties

- 16mm thick compact laminate benchtops with excellent impact resistance.
- Completely Impervious to moisture ingress.
- No applied lippings.
- Sheet size is 3600 x 1800 x 16mm thk.
- Ask for a copy of the Duratop properties sheet for details on chemical and stain resistance.

Applications

- Designed specifically for use in PC1 and PC2 laboratories
- Perfect for write up benches, engineering and electronics labs physics labs, store areas and shelving.
- Designed to work with Novalab's System 1000 / 2000 2032 steel support framework.
